DARWIN TULIPS

The Darwins, most popular of the May-flowering Tulips, are characterized by bright, clear colors. Their flowers are deep, bowl-shaped and are carried on strong stems 2 to 3 feet tall.

Afterglow. Warm orange merging into salmon 12 100
\$1 30 \$9 50
Baronne de la Tonnaye. Carmine-rose, lighter edge 1 25 9 00
Bartigon. Clear crimson-red with white base 1 30 9 50
City of Haarlem. Intense deep scarlet, dark blue base 1 35 10 00
Clara Butt. Salmon-pink. The favorite pink Tulip 1 30 9 50
Farncombe Sanders. Bright scarlet, clear white base 1 25 9 00
Giant. Deep reddish purple, shaded violet. Large flower 1 30 9 50
Helen Eakin. Beautiful pure white. Large flower 1 50 11 00
Inglescombe Yellow. Pure canary-yellow 1 25 9 00
King George V. Deep cherry-rose with blue base 1 50 11 00

Rainbow Mixture of Darwin Tulips

This Mixture is well proportioned as to color. It consists of light, dark, and intervening shades, not too many bright colors or too many pale ones, but harmonizing, bright and striking. Besides the almost perfect beauty which this Mixture exhibits in the garden, it gives a wealth of flowers for cutting.

12 for \$1.00 100 for \$7.50 25 for \$1.95

King Harold. Intense ruby-crimson 12 100

Yellow Giant. A rich deep golden yellow 1 35 10 00
Zwanenburg. Pure white flower of wonderful texture 1 40 10 50

Special Mixture of "Blooming-Size" Darwin Tulips

A special offer of young bulbs which have grown this year to "Blooming-size." This size will produce a nice display of flowers the first season, although they will not be as large and the stems not as sturdy as produced by "first-size" bulbs. Under good growing conditions the "Blooming-size" bulbs will have developed to "first size" Tulip bulbs the following season.

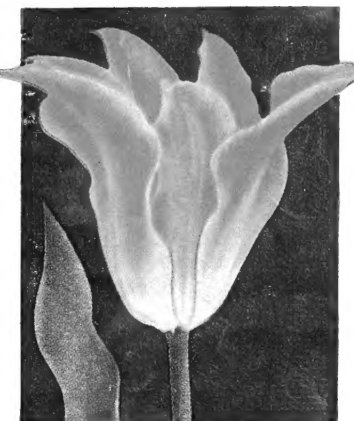

Supplied in Units of 100 Only

100 for \$4.25

COTTAGE AND LILY-FLOWERED TULIPS

Their flowers are mostly long and pointed. The delicate colors harmonize perfectly with the other late-flowering Tulips. All are excellent for cutting and many varieties are fragrant.

Advance. Orange-scarlet. Exceptionally large flower 12 100
\$1 60 \$12 00

HERALDS OF SPRING

The finding in bloom of the "First Flowers of Spring" is a great event and one of the genuine delights of life. No garden, however small, should be without the lovely "Heralds of Spring." They take very little room and, once planted, they reappear and bloom each spring.

CROCUS. For showy displays, Crocus should always be planted in groups or masses. They will grow in many places—in the lawn, flower beds, in rock-gardens, in sun or shade, and even under trees.
All Colors Mixed. 25 for 95c.; 100 for \$3.50

CHIONODOXA. Produces bunches of sky-blue flowers with white hearts. Grows 5 inches tall and blooms in April.
12 for 50c.; 25 for 85c.; 100 for \$3.00

ERYTHRONIUM (Dogs-Tooth Violet). Yellow. Plants with richly mottled leaves and small, lily-like flowers. Particularly suited for woodlands, shaded corners of the rockery. Grows 6 inches tall and blooms in April.
12 for 85c.; 25 for \$1.60; 100 for \$6.00

FRITILLARIA MELEAGRIS. Produce in April pendent, bell-shaped flowers in curiously checkered shades of yellow, white, purple and brown on stems 12 inches tall.
12 for 60c.; 25 for \$1.10; 100 for \$4.00

GRAPE HYACINTHS (Muscari, Blue). You can make the most beautiful edgings and groups with them; they look pretty in the rock-garden, beneath trees and shrubs. Grow 6 inches tall and blooms in April and May.
12 for 30c.; 25 for 55c.; 100 for \$2.00

SCILLA SIBIRICA. Produce several spikes of intense blue flowers 4 inches tall. Ideal for naturalizing as well as for rock-garden planting.
12 for 90c.; 25 for \$1.65; 100 for \$6.00

SCILLA CAMPANULATA. Erect spikes of open campanulate flowers. Valuable for wild gardens and woodlands. Grows 12 inches tall and blooms in May.
Blue, White, Pink. 12 for 90c.; 25 for \$1.65; 100 for \$6.00.
Mixed Colors. 12 for 85c.; 25 for \$1.55; 100 for \$5.75.

SNOWDROPS. Their lovely white nodding blooms appear before the frost is out of the ground. Once planted they remain for years. 12 for \$1.00; 25 for \$1.85; 100 for \$7.00

LILIUM CANDIDUM. The exquisite Madonna Lily produces fragrant snow-white flowers on stout stems 4 feet tall. Bloom in June. 3 for \$1.20; 12 for \$4.50

Erythronium

ROCK-GARDEN COLLECTIONS

Early spring-flowering bulbs, all suitable for the rock-garden. They are all hardy and will remain for years.

FLOWERS BRING JOY.

FLOWERS bring joy. And in what way can the investment of so small a sum bring more lasting pleasure than in their purchase? Flower lovers well agree that of all blooms none give more pleasure for the slight trouble and expense involved in growing them than Spring flower bulbs — Tulips, Hyacinths, Daffodils, Crocuses and the like — for which Holland has so long been famous. The reason is that when you plant bulbs of this description the flowers are already formed within them. Thus the cultivation required to bring the flowers out is reduced to the very simplest methods. The grower who produced the bulbs has already done the real work. All that the purchaser has to do is to place them into the soil — in the garden or indoors — moisture and a suitable temperature accomplish the rest. Small wonder they become more popular with flower lovers each year.

PLANTING OUT OF DOORS.

THE cultivation of these bulbs is simplicity itself. Provided only that one starts with sound, firm bulbs — obtained from a thoroughly reliable source — failure is almost impossible. When planting out of doors the soil is prepared as for other flowers, by being well dug and fertilized. ● Even in unfertilized soil the bulbs will usually give good flowers and for

the best results it pays to be generous in the matter of fertilizing. ● Each year some additional plant food can be given right after planting and again just after flowering. The purpose of the latter application is to develop good strong bulbs for next season's bloom. Good drainage is essential — particularly for Tulips. The depth to plant is about five inches. Planting is best done in September, October — and in some parts very well possible during early November. As all of the so called Dutch bulbs are perfectly hardy, protecting against frost is not essential, but many gardeners provide for a winter covering after the ground freezes hard to prevent premature growth in the Spring and thus lessen the chance of injury from late frost.

A WINTER LONG DELIGHT INDOORS.

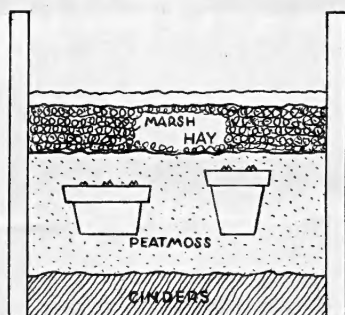

FLOWERS from bulbs bring joy not only for a long season in the Spring — from March until June — but add their good cheer to dispel the dreariness of long winter days. A few pots blooming on the window sill or in the winter window garden, will change the whole atmosphere of the room and for this purpose they may be had in long succession, from Christmas

BULBS PLACED IN BULB PAN FOR
"FORCING" FOR INDOOR BLOOM.

to Easter. ● Here again their cultivation is of the simplest. All that is necessary is to place the bulbs in pots. The bulbs are placed with the tops just level with the soil

surface, about half an inch below the rim of the pot. Allow them to make roots in some cool, dark place, and then bring them into living room or sun porch to bloom, *but not before the bud is three inches long.* Bulb pans (shallow flower pots) with half an inch of broken pots, pebbles or crushed shells on the bottom for drainage, are used for planting. ● Hyacinths and many Daffodils may be grown directly in pebbles and water, in moist peat moss or bulb fibre (obtained from Seedsmen). Peat moss and bulb fibre should be thoroughly moistened before use. Allow them to make roots in a cool, dark place, under no circumstances place them into the living room before the bud is three inches long. The longer the pots remain in a cool place the better and when placed into the room or greenhouse, a moderate temperature is to be preferred.

BULBS STORED FOR PRE-ROOTING. OUT OF DOORS BEFORE MAKING TOP GROWTH INDOORS.

PLANT BULBS THIS FALL.

Use them freely in your flower borders and beds, in the rock garden, for naturalizing under trees (Daffodils are especially good for this purpose) and for indoor cultivation. Experience the joy which flowering bulbs bring.
